

Kimberlin K. Gartman
Controller

Real Estate Specialty

Kim uses her expertise as part of the property management team in real estate portfolios such as retail, office and industrial through the preparation of financial packages.

Career History

Kim has been in the real estate industry since 1986. In addition to daily and monthly activities, Kim's responsibilities include client support. Kim's objective is to support the client and manager through the preparation of schedules to detail or summarize information as needed. Audit preparation, capital improvement and consolidation are some types of schedules she

frequently prepares. These are accomplished through the use of software such as MRI for Windows, J.D. Edwards, Yardi, Timberline, Skyline and Excel. Her proficiency in using these software programs assists her in meeting deadlines.

Education

B.S. in Business Administration/Accounting and General Management, Central Missouri State University
