

Denise M. Holt
Corporate Development Services

Real Estate Specialty

Commercial Development. Denise joined Kessinger/Hunter & Company in September of 2007 and will add her commercial construction and architectural design experience to the Commercial Development team.

Career History

Prior to joining the commercial real estate development field Denise was in the commercial construction industry constructing buildings for several office, educational, industrial, retail, hospitality and ecumenical clients for twenty one years. The delivery service offering included general construction, construction management and program management. Prior to her construction experience she practiced interior architecture for six years. Denise Holt has joined Kessinger Hunter Commercial Real Estate in the Corporate Development Services area and will be pursuing third-party project management accounts and serving real estate clients on build to suit projects.

Denise's project management experience includes coordination of project component teams of architect, consultant, contractor and client through site development, building core and shell, building fit-out, specialty buildings and tenant interiors. Her experience includes coordinating design teams, governing authorities for zoning and permit review; along with construction administration oversight. She has also been responsible for quality control along with extensive management and client contact responsibilities.

Education

Interior Architecture Emphasis from the University of Kansas, Lawrence, KS
MBA at Rockhurst University, Kansas City, MO
